

## Data Dictionary for Dataset: Electric Vehicle Charging Equipment Rebates

Column	Column Name / Field Name	Description
<b>A</b>	Award Number	Unique identifier for each grant application. Alpha-numeric. Begins with letters signifying the type of rebate award (EVSE = electronic vehicle supply equipment, RCS = residential charging station, CCS = commercial charging station, or WCS = workplace charging station). Ends with 6 digits signifying the date of the application (MMYY) and the numerical order in which applications were received by the state.
<b>B</b>	Month	Month of application submission
<b>C</b>	Year	Year of application submission
<b>D</b>	City	City of charging station location
<b>E</b>	Zip	Zip code of charging station location
<b>F</b>	Charging Station Brand	Company brand of charging station equipment
<b>G</b>	County	County of charging station location
<b>H</b>	Cost of Charging Station	Total dollars spent on charging station equipment
<b>I</b>	Rebate Amount	Total dollars awarded to applicant for charging station equipment. Residential equipment purchased prior to November 1, 2016 received 100% of the cost of the charging station, up to \$500; residential equipment purchased after November 1, 2016 received 50% of the cost of the charging station, up to \$500. Commercial equipment receives 75% of the cost of the charging station, up to \$2500. Workplace equipment receives 75% of the cost of the charging station, up to \$5000.
